**Subject:** Hello/ Question

Good morning Orlando,

You are welcome to read what I have posted on the WHOA website at whoanm.org regarding the June 5th meeting went here <http://whoanm.org/wordpress/> or specifically here: <http://whoanm.org/wordpress/?p=192>.

I have now read the July Signpost pgs. 6,7, and 9 by Evan A. Belknap. I have found many interesting statements in this article though I was present at this meeting. I would provide the link for you except the article in the online version is not at all the same article.

*On pg 9, of the hard copy, you are quoted as follows:*

*Lucero wants to see if churches, the elementary school, or the San Antonio de Las Huertas Land Grant will allow horses to be corralled on their property until the NMLB can take possession and find a place for them. "This is not part of the WHOA proposal", He said. "WHOA refuses to complete the application process that requires them to state where the horses will be taken. The process of corraling the horses will be done by local volunteers. Let's get together and take care of this."*

Were you quoted correctly?

1. Is there an "application"?
2. Is there an application "process"?
3. Where is this listed?
4. Do you know where the NMLB was going to house them until they "find a place for them?"

Please send me a link or where abouts of this "application".

I look forward to your response.

Thanks Much,

Patience O'Dowd
