Ms. O'dowd:

I'm sorry if information regarding to your request may have not gotten back you. I thought I had responded though our Placitas Plan contractor Cliff Spirock. Nevertheless at this time, Sandoval County does not have any plans for a "loop road" through the Placitas area and we do not have any such information in our records. Also, there was no such meeting that occurred between the Town and myself regarding a proposed "loop road". The meeting you are referring was in reference to the Placitas Area Planning Process and not a proposed "loop road" therefore no such documentation or records exist. I hope this answers your questions.

Thank you.

Hello Dave,

I thought I might ought to let you know that I have heard nothing back from this Open Records request. I assume like all other agencies that any Open Records request is forwarded to the appropriate administrator to ensure the Act is adhered to.

We are coming up on deadlines, so I thought you might like to know. I believe there are requests signed from something like 48 people attached, but for the most part, are all the same questions beyond the additional I have asked.

Thanks Much,

Patience O'Dowd co-founder WHOA

Hello Moises,

I hope this finds you and yours well. (Please see attached.)

Attached are 48 requests for information regarding a meeting you had with Kelly Moe and Steve Jerge per Steve Jerge, about 3 wks ago.

Placitans are very concerned and are waiting for the letter from Dave Mathews (as promised WHOA) regarding the status of the Loop Rd.

This letter was to be sent to the BLM outlining that Sandoval County does not want a Northeast Corridor on the BLM anyway.. The promised letter would also be copied to WHOA.

I also respectfully ask for any meeting notes, minutes, recording, or other documentation from this meeting.

Sincerely,

Patience

Thank You,
